CODE:LIM

PROJECT : THE IRISH WORLD PERFORMING ART VILLAGE

TYPE: PREQUALIFIED COMPETITION

SIZE : 4050 M2

CLIENT : UNIVERSITY OF LIMERICK, THE IRISH WORLD PERFORMANCE CENTER

COLLABORATORS : PLOT, JOS

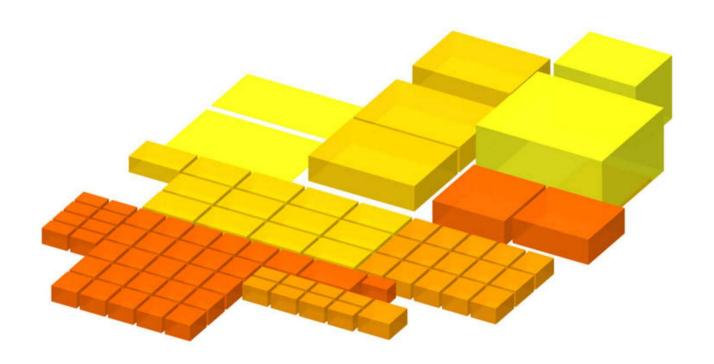

LOCATION : LIMERICK, IRELAND

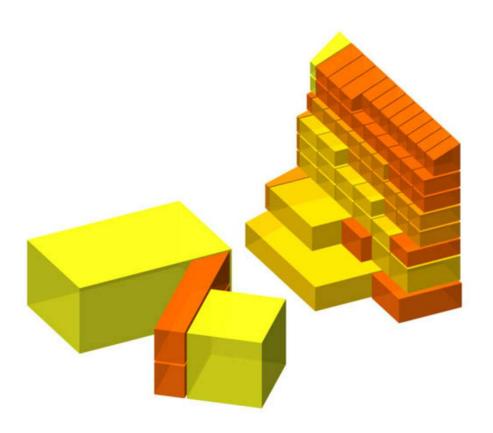

STATUS: SUBMITTED COMPETITION

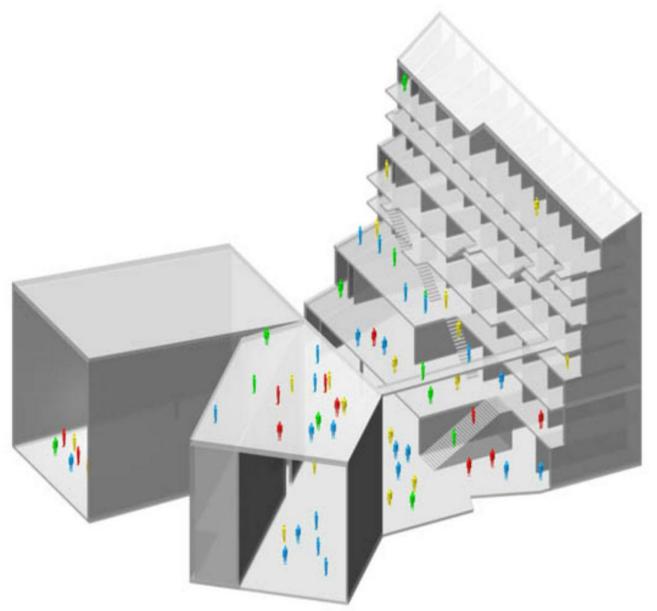

Project team:

Bjarke Ingels, Julien De Smedt, Anders Drescher, Narisara Ladawal, Nina Ter-borch, Olmo, Thomas Christoffersen.

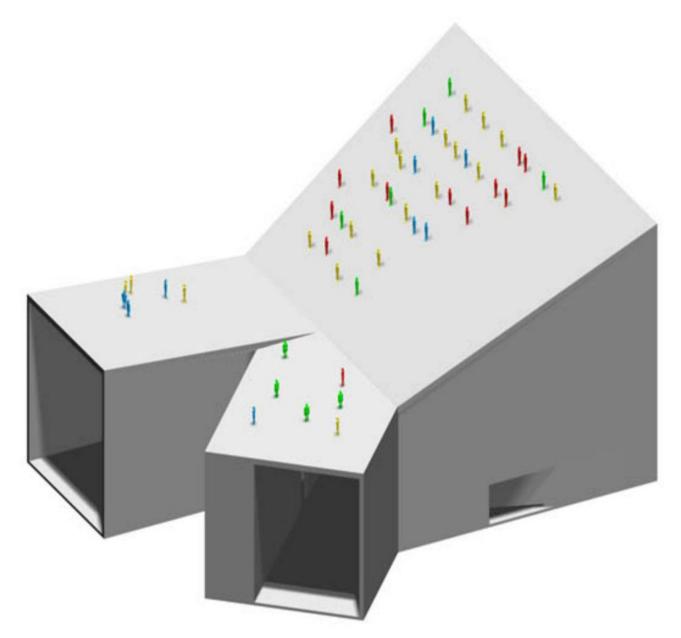

The two different organisational diagrams, the stack of spaces and the cluster of theatres are juxtaposed, sandwiching the lobby in the airspace between them. A continuous skin is swept around them like a tube or tunnel leading from preparation to performance. Like a giant picture tube the building projects its activities to the surrounding environment: like a huge pixelated screen; each pixel representing a program. Like 2 giant monitors, theatres transmitting free performances and exposing irish world performing arts to the rest of the world.

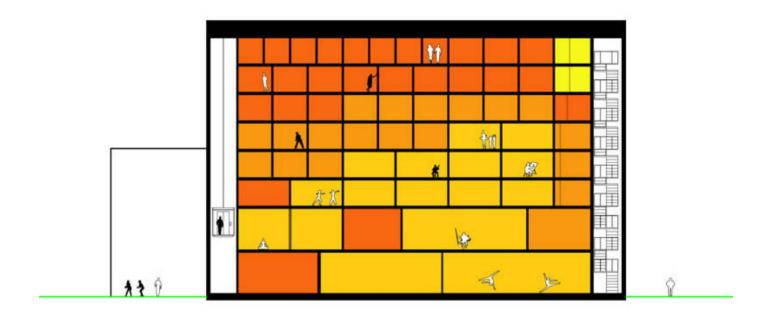

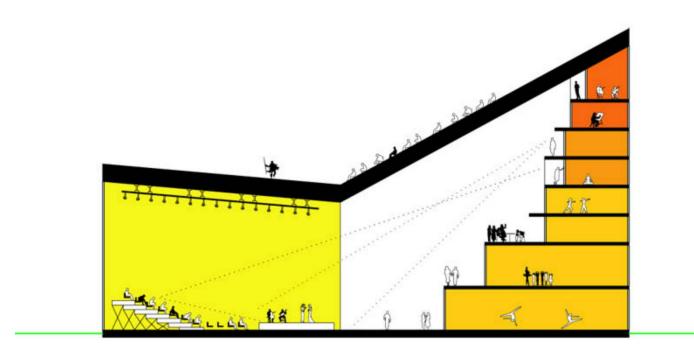

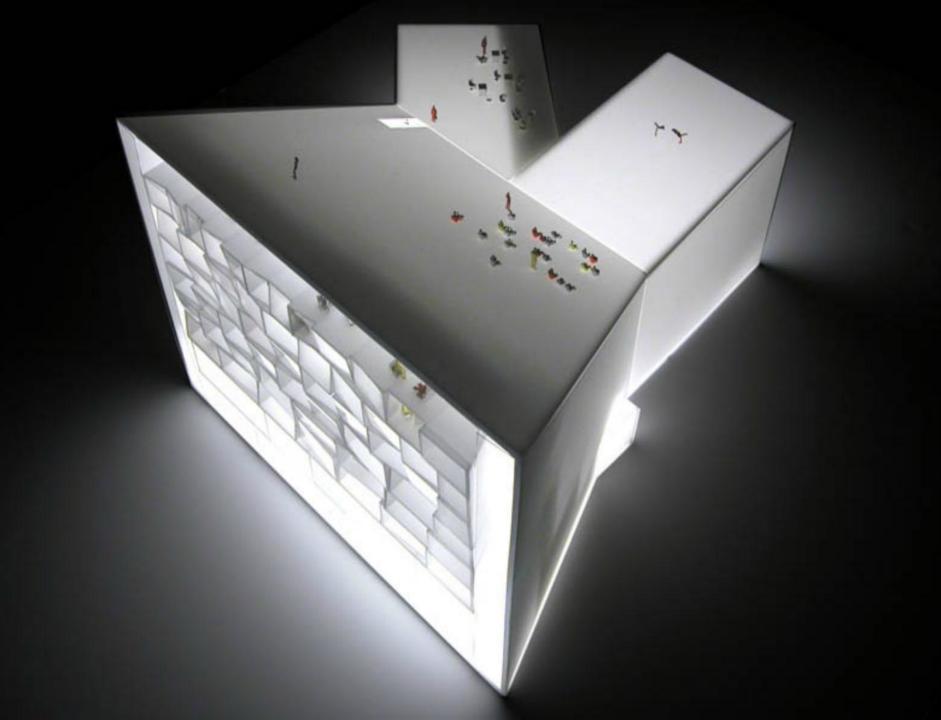

The Irish World Performing Art Village, Limerick, Ireland by PLOT & JDS - 2004
