

Students are required to submit a video presentation (e.g., PechaKucha or a similar narrative format). One student should submit the final work on behalf of the group.

***Video title should contain your lab group, names and IDs in alphabetical order.**

In a video of maximum 4 mins your team is required to the following criteria:

- The video should start with a collective summarized **introduction** about your title and its importance for the customer, then at least **four** of the following information about each plant (according to the most attractive information to audience and your limited time):
 1. **Origin of the plant (including: part used, genus, species, family, Arabic and English names).**
 2. **Mention the role of each plant in the preparation (don't mention the brand name) and their benefits over the synthesized ones.**
 3. **Picture of the organ used from the plant (with the highest content of the main active constituent).**
 4. **Chemical constituents.**
 5. **Other uses of the plant.**
 6. **The mechanism of action of the main active constituent of the plant used in the preparation.**

*******Make sure that voices and pictures are clear with the addition of these logos.**

***Be creative as much as you can.**

***Mind all the ethical aspects.**

- **Deadline for submission is Thursday 30/04/2026 11:55 pm**

The five best Videos will get bonus marks.

Organization: The video should have a clear beginning, middle and end.

Grammar and Vocabulary: English should be grammatically correct and scientific terms or acronyms can be used.

Delivery and Narration: Narration is clear, relaxed, comprehensible, has a good pace and consistent in style.

Time: video duration should be not less than 2mins and up to 4mins.

All videos will be screened in the lab and a small discussion will be held and announced later.

AI prompt should be available on request if used.
